

INTERNATIONAL YUDX HF CONTEST

RULES FOR NON-YU PARTICIPANTS

Contest sponsor: Amateur Radio Association of Serbia

Objectives: Developing traditional friendship between foreign and local hams.

Contest Period: Third full weekend of April, from 12.00 UT Saturday to 11.59 UT Sunday
(April 15-16 in 2017).

Participants: Any licensed non-YU amateur radio station.

Categories:

A.	SO-AB CW QRP	< 10 W
B.	SO-AB-CW-LP	< 100 W
C.	SO-AB-CW-HP	< 1500 W
D.	SO-AB-SSB-LP	< 100 W
E.	SO-AB-SSB-HP	< 1500 W
F.	SO-AB-Mixed-LP	< 100 W
G.	SO-AB-Mixed-HP	< 1500 W
H.	SO-SB-Mixed	(3,5 MHz any power)
I.	SO-SB-Mixed	(7 MHz, any power)
J.	SO-SB-Mixed	(14 MHz, any power)
K.	SO-SB-Mixed	(21 MHz, any power)
L.	SO-SB-Mixed	(28 MHz, any power)
M.	MOST-AB-Mixed	

Bands: 80, 40, 20, 15, 10 meters under the recommendations of IARU Region 1. Calling CQ is forbidden in DX segments of the bands.

Modes: CW (A1A) and SSB (A3J). CQ calling practice: CQ YU or TEST YU.

Contacts: Any participant with any participant. Only one QSO with the same station is counted per band and mode.

Exchange: Non-YU stations: RS(T) + QSO number. YU/YT stations: RS(T)+County Abbreviation, e.g. 599 SBB.

Points:

QSO with YU/YT station	10 points
QSO with station from your own country	1 point
QSO with station from the same continent	2 points
QSO with station from other continent	4 points

Multipliers: DXCC countries, plus YU/YT counties - 1 multiplier per band regardless of mode.

Results: Number of QSO points multiplied by number of multipliers.

Log: Logs are to be sent in Cabrillo format to

yudx@yu1srs.org.rs

or

<http://213.198.236.161:82/HF-Robot/index-HF.jsp>

or

<http://109.121.86.56:82/HF-Robot/index-HF.jsp>

no later than 10 days after the contest (in 2017, before 23.59 UT on April 26th)

Awards: Plaques for winners (first place) in every category. Awards in electronic form for all other participants.

The results will be announced on the Association web-page. The awards will be mailed or emailed to recipients.

- Dupes are not penalized and should be left in logs.
- Time difference in logs should not be greater than three minutes.
- If a station is a new multiplier - and has not sent its log in, it should appear in at least two more received logs in order to be accepted.
- The use of Packet Cluster is allowed, self-spotting is not.
- Invalid QSOs are not counted. Incorrectly received call sign or incorrectly received exchange information makes a QSO invalid.
- For RUN stations there is a ten minute rule for band switching: when they switch bands, they must spend at least 10 minutes on the band before the new band change. MULT stations can change bands at will, but only to work new multipliers.

COUNTIES:

SBB - Severnobački upravni okrug	ZLA - Zlatiborski upravni okrug
SBN - Srednjobanatski upravni okrug	MOR - Moravički upravni okrug
