

# ARI Meteor Scatter VHF Marathon 2024.

The main goal of the initiative, organized by the ARI Club of Florence, is to bring as many people as possible closer to acquiring the operational methods for making QSOs via Meteor Scatter on VHF. The choice of the Marathon period coincides with the peak of the Perseid meteor shower, which in 2024 is expected to have maximum activity on August 12 between 9:00 and 21:00 UTC.

## Final Score - band 6m
