DK5EW contest manager:

I saw a nice activity on the band and > than 280 active squares in Europe. Perseids have been not so strong as last years with a ZHR only 60-80/h but several 30sec. bursts have been there. Thanks to all testers for participation. *** Remarks*** The new Team sections was based on a idea by Rytis/LY4U/LY2WR. He contacted me in January 2011 about a proposal for the new team section. After discussion with the team we decided to go for Rytis proposal. Unfortunately Rytis got SK - we lost a great DXer and a friend !***

RX1AS:

Dear Joe and team of MSSPRINT contest, thank you for the new nice MS contest! Artem worked first time on MS and got a big fun.

W7OJT:

The Sprint made the Perseids fun, I had a great time working stations I haven't worked in a long time.

ON5GS:

73 tnx for nice contest!

All went well, condx seemed better on first morning. Ops: DL9NDW/DD2SR/DL2GX

YU7GM

My first MS SPRINT contest. I was pleasantly surprised with the number of stations that operated in contest. Thanks to everyone who make contact with me as well as those who have called me and we did not make a QSO. See you in December.

ON6NL...a extract from his log report

Every year they return: your birthday, the walking holiday of myx.yl and the Perseids. For me this happens all at the same time! As already for many years I was allowed to spend 100% of my time on meteorscatter during the Perseids. Since a few years this even in a contest thanks to the MS Sprint.

When I for the first time discovered that the "sprint" this year was 48 hours, I feared there would be many boring hours listening to noise. It went far better than I expected! Until fifteen minutes before the end I was making QSOs via meteorites.....

UT2UB

Thank you to the organizers for a wonderful test. Thank you who called me all. To meeting in 2012.

73! Andrej UT2UB

EA3AXV

Many thanks for the contest.
