

# 144 MHz Meteorscatter Sprint Contest 2015

## Final results

The 2015 edition of the "144 MHz Meteorscatter Sprint Contest 2015" was held from August 12, 2015, 04:00 GMT until August 14, 2015, 03:59 GMT. The final results for this contest are as follows:

### Class 1: QRP (ERP < 1500 Watts)

Rank	Call	Locator	Claimed QSO	Claimed Score	Error QSO	Final Score
01	S59R	JN76OM	52	70627	7	70357
02	IW7DEC	JN81GF	29	39151	3	39096
03	LY2BUU	KO15XU	26	34454	1	34435
04	LZ1VPV	KN22TK	24	33017	1	33016
05	RK1AS	KP40UE	19	31242	1	31236
06	UT3UX	KO50HJ	21	26244	3	25673
07	LZ1ZX	KN32ER	17	22302	4	22159
08	YL2IV	KO06OL	16	19762	0	19762
09	YL2DA	KO06MM	12	16148	5	16091
10	UR6EM	KN67RV	10	14580	2	15103
11	LZ2ZY	KN13OT	9	12369	1	12264
12	UA1ZFG	KP69NA	7	10911	3	10929
13	EA1HRR	IN83JJ	8	10679	3	10660
14	OH9EKT	KP38SP	10	7708	7	10629

*As contestmanager for the 2015 edition of the "144 MHz Meteorscatter Sprint Contest" I certify that the results above are true and correct to my best knowledge and belief.*

*Frank Veldhuijsen, PA4EME*

*Awards will be send to the participants between Dec. 7th and Dec. 9th. If a participant did not receive an award after Dec 9th, please notify the contestmanager.*

## **SOAPBOX**

### **DL1KDA (Alex)**

My Impressions:

It was very much fun for me and I took holidays for the Perseids and I wanted to make as many QSOs as possible. I liked the activity and called myself many times CQ on 370 and was pleased that a lot of stations answered on my CQ.

I am very happy about working ZB2 first time for me on 144Mhz.

During my CQ-Calls (of course with splitted RX) I found out, that you can run WSJT twice. So I was able to monitor the 370 and my split QRG at once. This increased my effectiveness of QSOs worked.

### **RU1A (Alex,RU1AA; Serge,RU1AF)**

Sorry, we could not work during the night 12/13 due strong thunderstorm.Strong QRM was few hours before and after this thunderstorm and we sorry, if we could not received any stations, called us.

### **LY/OK2ZAW (OK2ZAW,OK1MU,OK1NOR,OK1CID,OK1CU,OK1UGP)**

**MS Perseides 144MHz expeditionto the rare Poland (KO13, KO14 ) and Lithuanian (KO23) square.**

**Team: Slávek OK1CU, Pavel OK1MU, Standa OK1CID, Jindra OK1NOR, Olda OK1UGP and Jan OK2ZAW.**

It is the fourth time when the members ofOL7M contest team went to MS dxp and this year wevisited rare squares in northeastern Poland and southwest Latvia.

During this trip we run over 2100km bytwo cars. We started QRV 2 days as SP/OK1MU fromKO13NX square. There were made on 144 MHz 102 MS+ 3 EME QSOs and on 50 MHz 51 Es QSOs. Than we moved exactly few meters to KO14NA as SP/OK1CID for just short 14 hours QRV and made others 50 MS QSO. Subsequently, we moved from Poland to Lithuania to our main objective square from this year, which was KO23BX. For the nex 3 days we logged 213 MS + 6 EME QSO under LY/OK2ZAW and LY/OK1CU call.

Totally made on 144 MHz 365 MS QSO and 9 EME QSO with the only 11 el. YAGI and 450W PA, TRX IC-746PRO.

Thanks for ALL QSOs and see you on Perseides 2016 !

### **LAoBY (Stefan)**

Did not make so many contacts this time. I was hunting for new squares but this starts to become challenging as it often involves long distance and/or stations using low power. I had a couple of unsuccessful trials when I was JO59IX. Not sure I was QRV during the peak, reflections never lived up to usual "Perseid style". Was lucky to complete with IW7DEC Roberto over 2123km, quite a long distance for medium power. Nice and unusual QSO also with TF3CY Benedict who produced big reflections over 1742km. Thanks for all contacts!

### **LZ1NY (Victor)**

Victor, LZ1NY, was active near Sofia in KN12OP. The team was visited by Bulgarian "Nova TV" and they made short broadcastvideo dedicated to Perseids and radio-amateurs.

The video can be found on this URL: <http://vbox7.com/play:39b6fd92dd&start=0>

## **IW7DEC (Roberto)**

Like every year the fun is not missed ! Thank you for all the fun .Thanks to my friends IZ7EYA and IU7BPO for their valuable support.
